

Where can I find a list of permitted vaccinations for organic laying chickens?

Section 205.238 requires producers to establish and maintain preventative livestock health care practices including the administration of vaccines. Vaccines are on the national list at Section 205.603 as an allowed synthetic. The Animal Plant Health Inspection Service (APHIS) regulates vaccines for food animals. The APHIS website for vaccines and other biologics is

http://www.aphis.usda.gov/animal_health/vet_biologics/vb_licensed_products.shtml.

APHIS also shows a contact point for Biologics at Vet Services as: Veterinary Biologics, Phone: 515-232-5785, Fax: 515-232-7120.
